3. General Notes:
- i. Exceptions to Export Reporting by the Exporters, and hence NOT included in this data set.

 - ii. Export Reports by the Exporters NOT included in this data set due to unavailability in the CBSA Enterprise Data Warehouse. They are not readily available for mass retrieval.
 - Reporting via Paper B13A. (Paper forms are forwarded to Statistics Canada for data processing. Could be available from Statistics Canada.)

Notes

- Reporting via SRP prior to year 2020. (Reports are collected by Statistics Canada from SRP reporters. Could be available from Statistics Canada.)

- iii. For more info about exceptions by the exporter, paper B13A forms and SRP, please refer to Memorandum D20-1-1

3. Notes on Fields:

HS 8703 (CERS, CAED & G7EDI)

- i. Each row represents a commodity line. It may contain multiple vehicles, as indicated by multiple VINs in the GOOD_DESCRIPTION field.
- ii. REF_NBR: An arbitrary number to identify an entry in the data set.
- iii. VIN: Due to the design of the software, the width of the VIN field allows only one VIN. If the exporter chooses to enter multiple vehicles in one commodity line, the exporter may choose to enter all VINs in the Goods Description field. In such cases, the VIN field may contain only one of the multiple VINs or may be left blank.
- iv. GOODS_DESCRIPTION: Depending on how much details are provided in the GOODS_DESCRIPTION field, information on model, make and year of manufacture might be incomplete. There are no separate data fields for those sepcific pieces of information.

HS 8703 (SRP) tab

- v. Each row represents an entry in the monthly summary report. It may contain multiple vehicles, as indicated by multiple VINs in the GOOD_DESCRIPTION field.
- vi. There is no VIN field. VIN info is entered in the GOODS_DESCRIPTION field.
